About us

Rescue2 are the UK specialist in confined space rescue and safety training. Founded in 2012, we operate across London and the South East with seamless nationwide coverage. Our teams are drawn largely from frontline emergency services, combining real world experience with audited governance to keep your people safe and your operations compliant.

What we offer

Rescue2 delivers a professionally managed safety solution for all confined space requirements; full safety and rescue management and confined space safety training. We provide UK wide coverage across every industry sector, combining experience, knowledge, and capacity to deploy quickly and perform reliably. As an industry leader, our accredited teams, robust RAMS, and audited governance ensure a compliant, safe, and seamless managed service at all times.

What Makes Rescue2 Different

Rescue2 is more than a confined space rescue provider; we are the UK's leading partner for complete confined space safety, training, and consultancy. Our approach combines real world emergency service expertise with the scale, systems, and professionalism needed to manage risk nationwide. From rapid emergency response to long term project support, we set the benchmark for safety, reliability, and technical excellence in every environment.

- ✓ UK wide confined space safety, rescue, and training specialists
- ✓ Decades of frontline emergency service experience within every team
- ✓ More than 13 years of delivering safe, fully managed projects
- ✓ We provide a high volume of fully equipped rescue teams and vehicles every day, ready to support projects across the UK
- ✓ Dedicated Resource Management Team overseeing all logistics and equipment
- ✓ 24/7 nationwide coverage with agreed emergency call out
- ✓ Trusted by hundreds of UK businesses for professional, consistent delivery
- ✓ Built on Knowledge | Experience | Capacity
Start Safe. Work Safe. Home Safe.

Rescue2 – Confined Space Safety & Rescue Services

At Rescue2, we provide the highest standard of confined space safety and rescue services, not just “standby” rescue. Rescue2 provides an immersive, interactive safety and rescue service, managing safe working practices in confined spaces, reducing Lost Time Incidents (LTI) while remaining rescue ready at all times. Our approach focuses on creating robust, safe systems of work that prioritise the safety of all personnel. In the rare event of an emergency, our teams are fully rescue ready, capable of safely extracting casualties and providing medical care until the emergency services arrive.

We also have a dedicated onboarding team who manages the onboarding process for our 300+ associate rescue technicians, covering initial engagement, role specific training, PPE issue, and ongoing Continuous Professional Development (CPD).

**KNOWLEDGE AND
EXPERIENCE
= PROFESSIONAL
COMPETENCE**

From your first point of contact, all technical specifications, scopes of work, and rescue plans are meticulously developed and documented in our comprehensive RAMS (Risk Assessments and Method Statements) by our technical lead team. Operational deployment is carefully coordinated by our rescue coordinating team, ensuring every project is planned and executed to the highest standards.

All operational teams are supervised by experienced rescue team leaders, and every technician and team leader brings frontline emergency service or industrial specialist experience. All personnel are trained to the National Occupational Standard and hold a wide range of additional rescue and medical qualifications, ensuring every task is delivered with expertise, precision, and confidence.

CORE QUALIFICATIONS OF OUR 300+ RESCUE TECHNICIANS:

- City and Guilds Level 2 Award in Working in High Risk Confined Spaces (6160-03)
- City and Guilds Level 3 Award in Working as a Member of a Rescue and Recovery Team in Confined Spaces (6160-08)
- Level 3 Certificate in First Response Emergency Care
- Face fit tested
- Safety Critical Medical

ADDITIONAL QUALIFICATIONS FOR RESCUE TEAM LEADERS:

- City and Guilds Level 3 Award in Control Entry and Arrangements for Confined Spaces – High Risk (6160-04)
- City and Guilds Level 3 Award in Direct Emergency Rescue and Recovery of Casualties from Confined Spaces (6160-07)
- Rescue2 Team Leader Course

ADDITIONAL SKILLS WITHIN OUR TEAMS:

- Rope Rescue Operator
- Rope Rescue Supervisor
- Arizona Vortex Operator
- Level 4 Certificate in First Response Emergency Care
- Eye Bolt Installation and Testing
- City and Guilds Level 3 Award in Supervising Teams Undertaking Work in Confined Spaces (6160-05)
- City and Guilds Level 4 Award in Plan, Manage and Review Legislative and Safety Compliance for Work in Confined Spaces (6160-06)
- Water Industry and Customer Specific Training Qualifications
- Qualitative and Quantitative Face Fit Tester

With this combination of experience, qualifications, and practical expertise, Rescue2 delivers safe, reliable, and professionally managed rescue services across all environments.

Rescue2 – Governance & Skills Currency

ROBUST GOVERNANCE, AUDITED COMPETENCE

Our operations run under UKAS certified ISO 9001/14001/45001 management systems, with supply chain assurance via Achilles UVDB, Constructionline Gold, and SafeContractor.

KEEPING SKILLS CURRENT

Every rescue technician comes with a set of core rescue skills, and is upskilled to meet the National Occupational Standard for both working in High Risk Confined Spaces and Rescue. Additionally Rescue2 provide courses to enhance these skills allowing rescue technicians to progress and gain further knowledge and competence.

TEAM LEADER PIPELINE

We have established a Rescue2 Team Leader Course to further develop existing and future leaders. The programme covers: leadership & decision making under pressure, permit to work and ICS interface, dynamic risk assessment, casualty centred rescue planning, comms discipline, briefing/debriefing, evidence recording, and customer liaison.

ROPE RESCUE CAPABILITY

We continue to build a strong team of rescue technicians with rope rescue competencies across the full spectrum, from rope rescue operator and rope rescue supervisor to rope rescue instructor. This allows us to resource more complex industrial scenarios where greater control and more complex rescue requirements are needed.

PROJECT ENGINEER
– SOUTHERN WATER

WHAT THIS DELIVERS FOR CUSTOMERS

- **HIGHER OPERATIONAL READINESS** – Clinically capable, technically assured teams with proven knowledge and experience.
- **ASSURED COMPLIANCE** – Competence mapped to UK legislation and National Occupational Standards, supported by auditable training and CPD records.
- **CONSISTENCY AND QUALITY** – Experienced, trained and competent teams.
- **FASTER MOBILISATION** – Resource management team ensure equipment is inspected, tested and rescue ready for immediate deployment.
- **CONFIDENCE AT SCALE** – Capacity to provide multiple teams throughout the UK ensuring consistent levels of skills and competence.

Why Choose Rescue2?

Rescue2 is not just another confined space rescue provider; we are the UK's leading partner for end to end confined space safety, rescue, and training. Here's what sets us apart:

01

COMPREHENSIVE KNOWLEDGE

We offer more than "standby" rescue. Our expertise covers training, consultancy, equipment management, safety systems, and full rescue operations, giving customers a complete, joined up service.

02

REAL WORLD EXPERIENCE

Our teams are made up predominantly of frontline emergency service professionals, from firefighters and incident commanders to technical rescue specialists with real confined space industry experience. This means our people don't just know confined space safety in theory; they live it in practice.

03

UNMATCHED CAPACITY

With the capacity to dispatch over 20 fully equipped rescue teams and vehicles each day across the country, no other UK provider matches our scale or speed of response. Whether it's a small project or a nationwide operation, we have the resources to deliver.

04

DEDICATED RESOURCE MANAGEMENT

Behind every deployment is a specialist resource management team overseeing thousands of pieces of equipment, vehicles, and logistics. This ensures every team leaves fully prepared, certified, and ready to respond.

05

24/7 NATIONWIDE COVER

We provide round the clock support, 365 days a year, with rapid emergency call out available where agreed, giving our customers total peace of mind.

06

PROVEN PROFESSIONALISM

From short term projects to multi year contracts, our customers trust us to deliver safely, efficiently, and consistently, regardless of the environment or scenario. Our people have the best training, knowledge and experience in real world confined space environments, delivering a consistently professional service to our customers.

07

PROVEN TRACK RECORD

For over 13 years, Rescue2 has been at the forefront of the UK confined space safety, training and rescue industry. In that time, we have successfully delivered thousands of safely managed projects for hundreds of customers nationwide. Our consistent performance and reliability have built long standing customer relationships and established us as a trusted leader in confined space safety, training and rescue.

Excellent provision of onsite safety services. Often performing beyond expectation.

MIKE OUSBY - VEOLIA

Rescue2 – Built on Three Core Principles

At Rescue2, everything we do is guided by three core principles that define our standards and reputation: Knowledge, Experience and Capacity.

These pillars ensure we operate safely, deliver consistently, and scale confidently: whether we're providing rescue cover, safety consultancy or accredited training.

START SAFE

WORK SAFE

HOME SAFE

The expertise and efficiency demonstrated by their team have left me thoroughly impressed.

ADRIAN – PROJECT MANAGER, THAMES WATER

01

KNOWLEDGE

Our industry knowledge spans a broad spectrum of disciplines, ensuring our teams are always well informed, up to date, and fully equipped to solve your specific confined space challenges.

From training and consultancy through to safety systems and rescue management, we provide practical solutions tailored to your needs.

02

EXPERIENCE

95% of our rescue technicians come from frontline emergency service backgrounds, with the remainder being industry specific experts. Every one of them has extensive confined space knowledge and hands on experience, bringing a real world, practical approach to confined space safety and rescue management. This ensures professionalism, consistency, and confidence on every project, regardless of its scale or complexity.

03

CAPACITY

We are uniquely positioned to support both specialist small scale projects and large, complex operations that require multiple teams, extended deployments, and significant resources.

Whether for short term works or long term projects spanning months or years, Rescue2 has the proven ability to deliver.

With the resources to send out 20+ fully equipped specialist safety and rescue teams per day, unmatched by any other UK provider and the mobilisation of our four mobile confined space training trailers at a moment's notice, our dedicated Resource Management Team oversees thousands of pieces of rescue and training equipment.

Our capacity to scale while maintaining uncompromising quality sets us apart.

OUR REPUTATION

- ✓ Industry leading knowledge across confined space safety, rescue and training
- ✓ Frontline experience drawn from emergency service and industrial backgrounds
- ✓ The UK's leading provider of fully equipped rescue teams, ready every day
- ✓ Proven to deliver safe, reliable operations nationwide
- ✓ The foundation of every Rescue2 service: Knowledge | Experience | Capacity

At Rescue2, Knowledge, Experience and Capacity are more than just principles; they are the foundation of our reputation as the UK's go to partner for confined space safety, rescue, and training.

Rescue2's strength lies in the balance between what we know, what we've lived, and what we can deliver.

Our knowledge keeps us compliant and innovative.

Our experience ensures calm, confident performance in real world situations.

Our capacity gives clients total assurance that we can scale safely without compromise.

Together, these principles underpin every Rescue2 service and make us one of the most trusted names in UK confined space safety.

Training Services

ABOUT OUR TRAINING SERVICES

Rescue2 is a market leading provider of high quality Health and Safety training, trusted by organisations across all industry sectors. Our core strength is in delivering realistic, relevant and engaging training that prepares people not just to pass a course, but to perform safely and confidently in the real world.

VIEW ALL OUR COURSES

<https://www.rescue2.co.uk/training-services/#our-courses>

From your very first enquiry through to post course evaluation, skills development planning and ongoing support, our dedicated training support and delivery teams manage every step of the journey. We take time to understand your working environment, your risks, and your people, so that every course delivers genuine value back into your organisation.

At Rescue2, training is never just “classroom learning.” Our courses blend technical accuracy with immersive, hands on practical sessions, using real world scenarios, equipment and environments wherever possible. This approach helps delegates retain information, apply it correctly under pressure, and return to work with both competence and confidence.

WHY CHOOSE RESCUE2 FOR YOUR TRAINING?

- **ACCREDITED TRAINING PROVIDER**
We deliver a wide range of regulated and accredited qualifications, including City & Guilds, CABWI, EUSR, EUIAS, IOSH, and Rescue2 accredited specialist courses. This ensures your teams receive training that is recognised, robust and aligned with industry standards and legal requirements.
- **FLEXIBLE DELIVERY OPTIONS**
Courses can be delivered on site anywhere in the UK or at our dedicated training centre in Poling, West Sussex. Whether you need a single course for a small team or a structured training programme across multiple sites using our four dedicated confined space mobile training trailers, we tailor delivery to suit your operational needs and schedules.
- **EXPERT TRAINING TEAM**
Our trainers are drawn from frontline emergency services and industry specialists, bringing decades of real world operational experience. They combine subject matter expertise with clear, engaging instruction, ensuring every delegate understands not just what to do, but why it matters.
- **SPECIALIST FOCUS AREAS**
Our core focus is on:
 - Confined space training and safe systems of work
 - Confined space rescue and emergency arrangements
 - Health and safety management and supervisor/manager training
 - Wider workplace safety skills on request

By choosing Rescue2, you are not just booking a course. You are investing in a professional, well governed training partnership that helps keep your people safe, your operations compliant, and your organisation better prepared for the challenges of working in all environments.

Rescue2 – Confined Space Training (Our Core Specialism)

Confined space training is what we are known for. It is our core subject and the foundation of our service to customers across the UK.

ACCREDITED PATHWAYS THAT FIT YOUR RISKS

City & Guilds 6160 full suite of courses, plus CABWI and EUIAS routes are available for Confined Space Training plus Rescue2 accredited courses for more company specific bespoke training requirements. CITB SMSTS and SSSTS to strengthen supervisory competence and legal compliance are also available.

DELIVERY AT SCALE, WHEREVER YOU ARE

One of the UK’s largest mobile training operations with four mobile confined space training trailers, bringing realistic scenarios to your site to cut travel and downtime. Train nationwide at your location or at our centre in Poling, West Sussex. We can also source and manage external venues.

PRACTITIONER-LED, COMPETENCE-DRIVEN

Our training delivery team are frontline emergency service experienced and industry specialists. Courses are practical, immersive and scenario based, and mapped to National Occupational Standards ensuring compliance, competence and confidence in learning.

FAST, SEAMLESS EXPERIENCE

Short notice scheduling, clear joining instructions, and end to end admin via our training support team ensure a seamless stress free approach to booking in your training requirements, whether a single delegate or multiple courses and various locations.

GOVERNANCE & ASSURANCE

Delivered under UKAS certified ISO 9001/14001/45001 management systems with recognised awarding body routes (City & Guilds, CABWI, EUIAS).

OUTCOMES

Producing a safer, competent and more confident workforce whilst remaining compliant. Creating Safe People, Safe Places.
